

DISCUSSION QUESTIONS

Old Weapons on New Battlefields

1. Why in 2024–26 did drones and cheap missiles emerge as the deadliest weapons on the modern battlefield?
2. Does the use of drones make it more likely that their operators in the homeland or well behind the battlefield are now fair game?
3. How long will it be before robotic drone infantrymen make their appearance on the battlefield?
4. Which side do cheap drones help the most? The aggressor or the defender? The poorer side or the richer belligerent?
